When animals and monsters attack, you need a van Helsing. In a dangerous world, where supernatural creatures and evil monsters lurk, you need a mysterious man who uses arcane knowledge to become a dangerous weapon of justice. So the mysterious, eloquent and likeable man is not that far away from achieving his dream, getting his katana and joining the ranks of the hunters. When he went to school, he studied everything about the mysterious world. Mostly, the arcane world. But it was not easy to learn it, not for the common people, least of all, for a weird man, with a pink face and dark clothes, who grew up on a little street and spent most of his time with dolls and carriages. But he got his diploma and became a specialist in arcane technology, completely specialized in the use of interesting gadgets and esoteric machinery, especially the one called Discharger and Chargerpack, which he uses in his work as a hunter. Game Features Class Specifics: The Arcane Mechanic is a class of the new Van Helsing DLC. The class offers you a unique skill tree, with new weapons, unique wearables, as well as a set of tactics and unique mechanics to support the new class. Unique Mechanical Creatures: The Arcane Mechanic can summon creatures from the primordial world, or take over a monster, using Discharge and Charger. New map: The main map of the Van Helsing DLC has been radically changed, making the gameplay closer to what you experienced in the previous parts. There are two new singleplayer quests, and a brand new multiplayer map. NPC: Van Helsing is now joined by an additional NPC, who will serve as your mentor while you learn the basics of the class. He will be useful in the way of your progress through the skill tree. New Features in the Skill Tree: Each Arcane Mechanic has different needs, and while learning the class is quite easy, his development goes full steam. The skill tree has been updated to accommodate the class, and it features brand new skills, perks, skills/perks interactions and equipment upgrades. Patch Notes Player and map fixes
